“ We started fishing, shooting, hunting, tracking, playing army, camping, making camp fires to cook some fish that we had just caught! That was back in the early 1960's. One time we were tracking a Big Buck, early or middle 1970's, when he followed a track leading into a good sized thicket while I was on the other side waiting to take a shot! While walking I picked up the tracks on the far side were that Big one had walked out. Well Brad was in the the middle of the brush so Thick it was hard for him to move. He was fairly large at that time (fat) and couldn't get out! Sorry, as he's complaining about being stuck I'm on the other side laughing my ass off!! Well he laid down on top of the brush and rolled all the way outta there! I'm waiting for him to come out Crying from Laughing so hard, he's all flushed and out of breath so he couldn't get ahold of me to kick my ass, thank God cause I was still doubled over from laughing, besides I was driving and he would have had to walk ! Then one Dioxin we're on the ice driving around in the Caddy, Beer in one hand and cigar in the other, talking to some strangers fishing near the Girl Scout camp when the Caddy hit a small bump before we got to this group. "How's the fishing boyz"? Windows rolled down, cigar smoke pouring out, radio blaring and getting Dirty Looks from these guys!! Well we had a big pickerel in that catch hole you just ran over ,!! Sorry ☐ . And So Many other stories even Better then that..

A couple of decades later he drove over to the camp in Burnham Me. and the day went on like it had only been a couple of weeks! There's not too many people who can say that about friendships in their lives but that was ours. Before we could get back together I had some health issues that have kept me from camp over 2 years now so we'd talk over the phone, telling lies to each other, sometimes for over an hour, but I'm so Lucky we had re-connected for that time. Many many Good times that we had and I surely believe on the other side we will hook up again! To the Family I'm truly sorry for your Loss, for the older Dioxin crowd I'm happy for our memories and for the newer Dioxin crowd keep him in mind when that flag goes up and the Skull gets passed!!
